

## HOSE REEL BASES

#6025 . . Retractable Stainless Steel  
Hose Reel Base-Air/Water

#6026 . . Retractable Stainless Steel  
Hose Reel Base-Air

The #6026 reel base has the same technical specification as the #6025, except that it comes with a single hose reel.

### NO MORE TANGLED HOSES

With the J.E. Adams Industries Stainless Steel Reel Base there will not be any more tangled hoses thrown around your parking lot. The automatically retracting reels keep the 25-foot steel braided hose stored neatly out of sight.

### RUGGED STAINLESS STEEL CONSTRUCTION

This base is constructed out of a high quality 12-gauge stainless steel, ensuring durability, long life and low maintenance. This unit will never need painting and will never rust.

### COST SAVINGS

Never worry about hoses or gauges being ruined by cars running over them. Over the years the savings in hoses alone could pay for this unit. The user friendly design and attractive looks will aid in the increased use of your equipment, in turn increasing your profits.

### ADAPTABILITY

This unit is designed to fit most air machine cabinets. Try it with our #8670-1B air machine cabinet or our #8670-1WB combination air/water cabinet. Easy installation for this base makes it simple to add this unit to your list of customer service items.

This #6025 unit is shown as an air/water base, but it is also available as an air only base, #6026.

### #6025 CABINET
